"I'm Right, You're Wrong"

You say, yeah  
You say, yeah, I'm right, I'm right  
(You're wrong)

Deep down, we can only be our pain  
And some girl lifts our sacrifice  
Deep down, we can only greet the, greet the  
Greet the fireflies

I remember everything about you  
And I am fallen like thick steam

You say, yeah  
You say, yeah, I'm right, I'm right  
(You're wrong)

My heart falls and falls again  
You know how this will the end  
You are a shattered, lonely mess  
I am so impressed

I remember everything about you  
And I am fallen like thick steam

You say, yeah  
You say, yeah, I'm right, I'm right  
(You're wrong)

"Heaven Only Knows What Your Husband Thinks of Us"

Heaven only knows  
How this will end  
Our script needs  
Revision

Heaven only knows what you're gonna dream up  
Heaven only knows what your husband... thinks of us  
But you know it ain't right

I kissed you  
I kissed Pamela too  
She's like a disease  
What will I do?  
She kisses like  
An infectious disease  
What will you do?  
She's down on her knees

Heaven only knows what you're gonna dream up  
Heaven only knows what your husband thinks of us  
Heaven only knows what you're gonna dream up  
Heaven only knows what your husband... thinks of us  
But you know it ain't right

Please don't ever do that again  
Again and again and again and again  
Please don't ever do that again  
Again and again and again and again

"She Love to Bite"

Gimme that feeling again  
It is better than wine  
She is such a femme  
April is my crime

At the dance, at the end of the night  
She turns to me and says, Oh, I love to bite  
We danced up the wildest storm  
Until the darkest star was born

She has a way of having her way with me  
Oh, that ambidexterity

She has a way to forget my pain  
April is hardly plain

At the dance, at the end of the night  
She turns to me and says, Oh, I love to bite  
We danced up the wildest storm  
Until the darkest star was born

"This City Goes on Forever"

Out-of-tune pianos cling to you  
I become accustomed to what I need  
Like notes on my guitar, you sexy thang  
I yearn for a dose of speed

This city goes on and on forever  
This city goes on and on  
This city goes on and on forever  
Now that you are gone

The ocean is advancing  
My heart falls apart in your hands  
But the storm is passing  
Like the shifting of the sand

This city goes on and on forever  
This city goes on and on  
This city goes on and on forever  
Now that you have gone  
Now that you have gone

"Trouble Makes Me"

Please don't ever  
Go away

There will come  
A new day  
Trouble makes me  
Want to kiss her now  
I am just  
Pulling the plow

Trouble makes me want to kiss her now...  
Nevermind the cost  
She's the one I can't resist, she's the one I can't resist  
Nevermind the cost

Give me strength  
To carry on  
Now that  
Trouble is gone  
And I have discovered  
All is never lost  
Nevermind  
Nevermind the cost

Trouble makes me want to kiss her now...  
Nevermind the cost  
She's the one I can't resist, she's the one I can't resist  
Nevermind the cost

There you go again  
Crushing my heart  
It's dissolving  
Me apart  
She's the one  
I can't resist  
Oh, Trouble  
What is this?

Trouble makes me want to kiss her now...  
Nevermind the cost  
She's the one I can't resist, she's the one I can't resist  
Nevermind the cost

"Like a Song"

You're like... a song  
You're like... a song  
You're like... a song  
You're like... a song

You tell me you love me as if you were a song  
You are feeling that you've gone wrong  
You tell me that you best believe... and I get along  
Our fear pays for our duty... and I get along

You're like... a song  
You're like... a song  
You're like... a song  
You're like... a song

You told me your tone sings just like the slip  
Oh your touch, I am all in lilac  
Just like that, I reach for conclusions... and we get along  
This shoulder kisses your conclusions... and we get along

You're like... a song  
You're like... a song  
You're like... a song  
You're like... a song

"My Aching Head"

She said, my aching head  
She said, she said, my aching head  
My lethal injection has a shining hue  
Your old boyfriend is what's true

Everybody up, everybody out

Everybody up, everybody out  
Everybody up, everybody out  
Everybody up, everybody out  
Everybody everybody everybody everybody

She said, my aching head  
She said, she said, my aching head  
My hallucinations led to the rain  
The winds on an ocean to navigate

Everybody up, everybody out  
Everybody up, everybody out  
Everybody up, everybody out  
Everybody up, everybody out  
Everybody everybody everybody everybody

Have you heard the news? Love is our sacrifice  
In ancient Rome, we could be my sacrifice

Everybody up, everybody out  
Everybody up, everybody out  
Everybody up, everybody out  
Everybody up, everybody out  
Everybody everybody everybody everybody

-----  
"Cheap Tibet"

The time has come  
To say goodbye  
Trouble don't need  
No alibi  
We regret  
The words we sing  
You make it seem  
So convincing

Everybody

Listen to me  
I need you  
Immediately  
Everybody  
Listen to me  
To me, to me

I'll pretend  
that I'm in love  
That you're an angel  
From above  
That you won't play me  
Like a fool  
That I won't fall off  
My bar stool

In Nepal tonight  
It'll be alright  
In Nepal tonight  
It'll be alright

"Naomi in the Sun"

Heartbreak comes to me in the morning  
I'm very discreet; tell me I'm boring  
You caught me, my precious one  
Naomi in the sun

She has a way of telling me lies  
Naomi's out with the guys  
She has a way of telling me lies  
Naomi's out with the guys  
She has a way of telling me liiiiiiiiies

Yeah, you caught me, my precious one  
Naomi in the sun  
We smelled like ashtrays  
The distinct smell of Brooklyn

She has a way of telling me lies  
Naomi's out with the guys  
She has a way of telling me lies  
Naomi's out with the guys  
She has a way of telling me liiiiiiiiies

She has a way of telling me lies  
Naomi's out with the guys  
She has a way of telling me lies  
Naomi's out with the guys  
She has a way of telling me liiiiiiiiies

"I Remember Everything and I Am What Exists"

I remember everything and I am what exists  
I know that it's certain that I cannot be fixed  
I remember everything and I am what exists  
I know that it's certain that I cannot be fixed

Her therapist hates it when we are my dream  
Alone, I wonder if I haven't got caught between

-----

"The Actress"

I started leaving before dawn  
You had nothing, nothing on  
You whispered to me  
Don't you dare try to run

You are what you cherish most  
As if we're watching from coast to coast  
You are what you most cherish  
You are the actress

You make me feel like  
This night will never end  
Your heart cries out for  
For a gentleman

You are what you cherish most  
As if we're watching from coast to coast  
You are what you most cherish  
You are the actress

"Honey, Honey"

You left me with all the clues  
That I could misconstrue  
And I can't deny  
I cried and cried  
It was far too swift  
For this somnambulist  
I'm just a radar blip  
With my zipper unzipped

It all seems like a trap  
Honey, honey, honey, honey  
That you aren't coming back  
Honey, honey, honey, honey  
Yeah, it was far too swift  
Honey, honey, honey, honey  
For this stupid somnambulist  
Honey, honey, honey, honey  
Honey, honey, honey, honey

Here at the hotel  
Where we said farewell  
You and your disdain  
On your last crusade  
You think this is bizarre?  
Read my memoir

I'm out of my routine  
But still a human being

It all seems like a trap  
Honey, honey, honey, honey  
That you aren't coming back  
Honey, honey, honey, honey  
Yeah, it was far too swift  
Honey, honey, honey, honey  
For this stupid somnambulist  
Honey, honey, honey, honey  
Honey, honey, honey, honey
